

JALAJ — CUT 01

Alabaster Lotus Basin

A lotus-form basin carved from honey-coloured alabaster, the petals opening outward from a hand-hollowed centre. The stone holds a slight translucence — held against morning light, the rim glows faintly amber. A water-born piece, named for what is born of water.

MATERIAL	Honey alabaster (Rajasthan), hand-carved petal form
ORIGIN	Workshop in Jaipur, Rajasthan
LEAD TIME	8–10 weeks from confirmation
DIA	48 cm
HGT	18 cm
